- 34 data centers in 13 cities across 11 countries - >75.000 sqm data center space (Vienna: 5.000 sqm)
- 19 internet exchanges (Vienna: VIX)
- Over 1,300 customers (Vienna: >150)
- More than 450 employees (Vienna: 20)
- More than 500 connectivity providers (Vienna: >100)

OUR SERVICES

This is where our customers store their equipment. Interxion provides the space, power and cooling that is required to run the servers efficiently

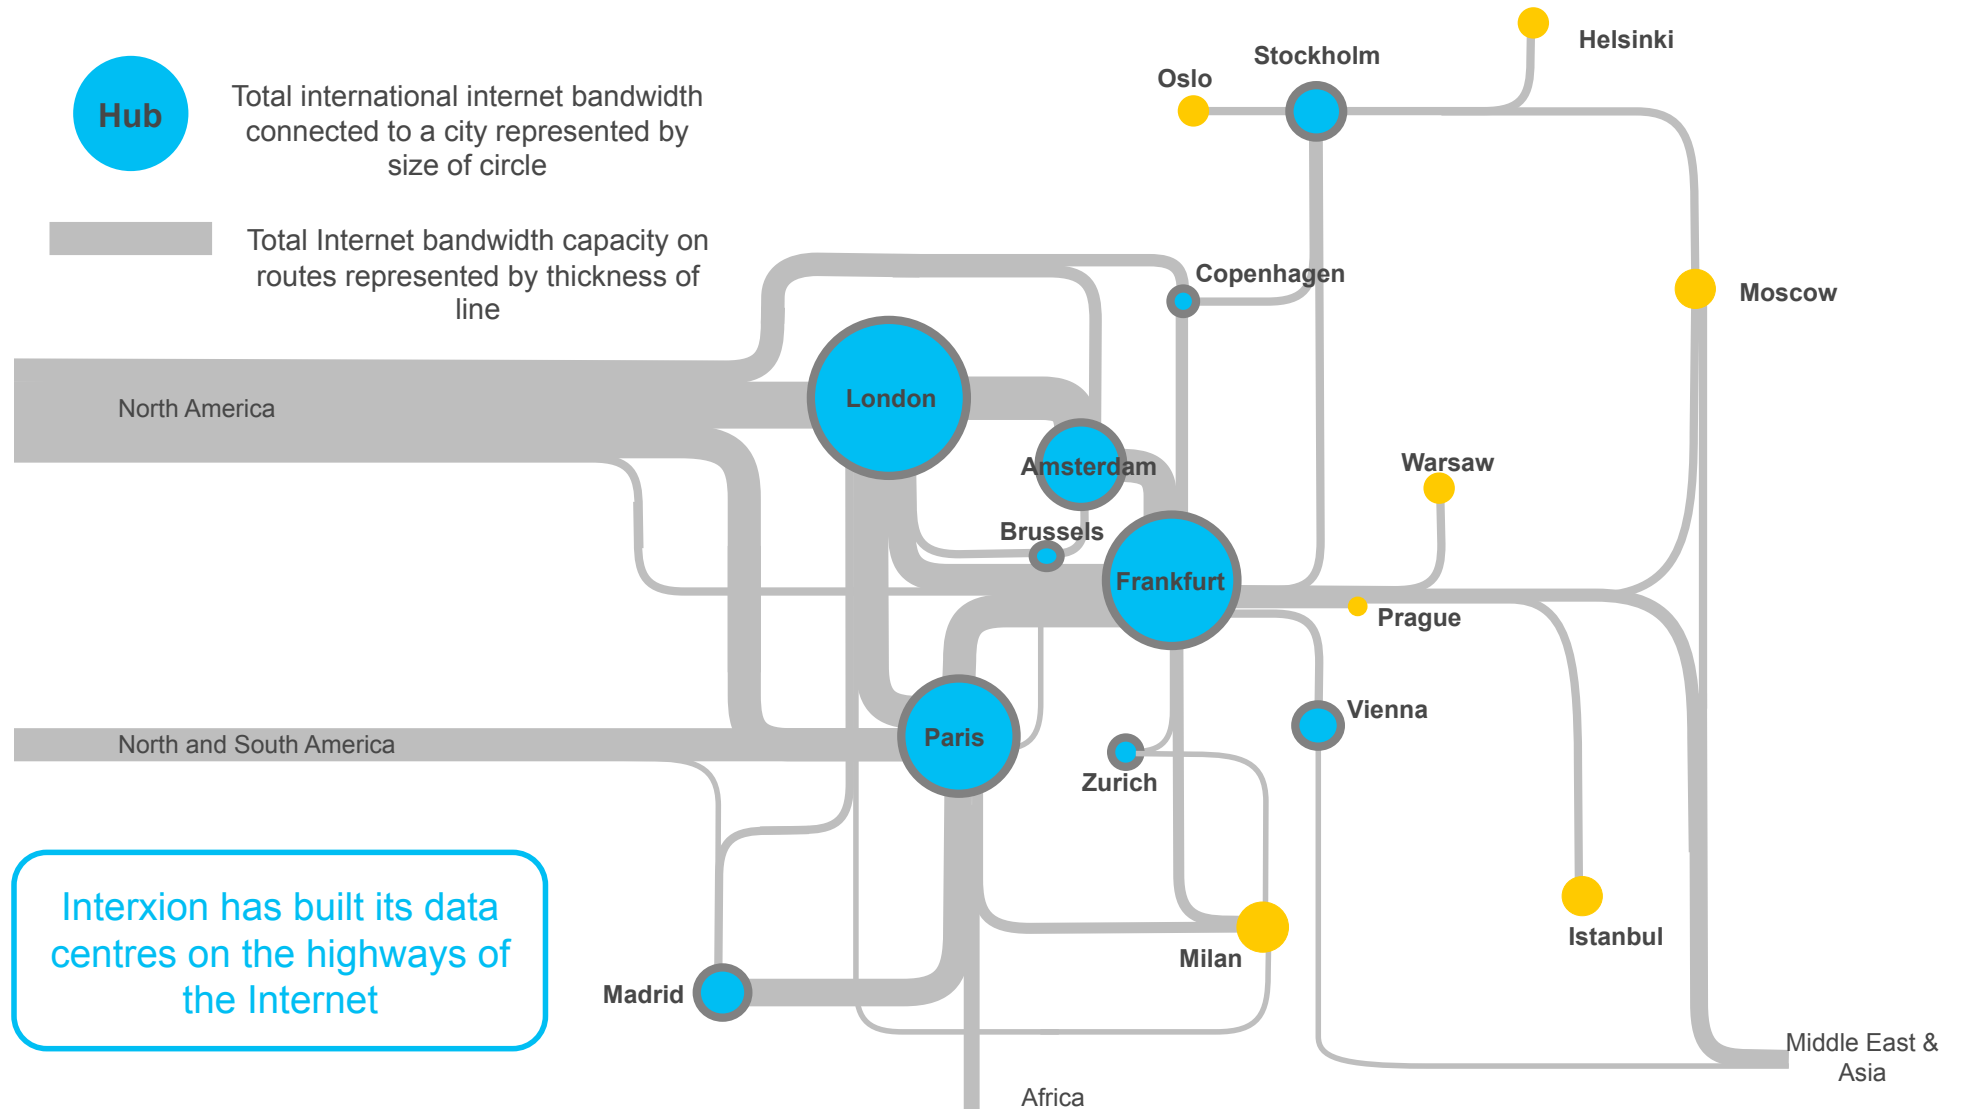

Connectivity is an essential part of the Interxion offering. Customers can cross connect to one another, connect to financial exchanges or peer on internet exchanges to distribute their content

Our highly trained engineers are available around the clock to ensure customer equipment is running effectively
